

MBE announces the appointment of Senior Actuarial Manager, Rajjiv Fowdur

Muller Beukes Edwardsen (MBE) is pleased to announce the appointment of Rajjiv Fowdur, an expert level actuarial solution architect to the position of Senior Actuarial Manager.

Fowdur will lead the MBE Prophet Development team, and brings with him extensive experience in modelling software. During his 11 years at FIS he has consulted on and managed large-scale actuarial modelling projects across Europe and the United Kingdom.

Fowdur's most recent project saw him implementing the standard formula ALM approach in ALS for a European regulator. He completed his Actuarial Science degree at the London School of Economics and is a Fellow of the Institute and Faculty of Actuaries.

"The wealth of experience that Fowdur brings to MBE will further enhance our offering to our clients and partners, deepening our capacity and ability to tackle the complexities present in the actuarial sector," said Andries Beukes, Director of Actuarial Solutions. "On behalf of MBE I would like to welcome Fowdur to the team, and we are excited at the prospect of working with him."

Says Fowdur on his appointment: "MBE has developed a reputation in the financial services industry for innovation in actuarial modelling and managing multiple complex projects. I look forward to contributing to the team, and further strengthening the value and technical solutions that MBE bring to their clients and partners"
